PERSONAL PROFILE

"Bachelor of Informatics with a passion for Front-End and Back-End Development. Proficient in creating attractive websites and managing databases. Skilled in HTML, CSS, JavaScript, PHP (Laravel), and experienced in using frameworks like Figma."

PROFESSIONAL EXPERIENCE

Frelancer, Yogyakarta, Indonesia

Web Designer (2023 – Now)

As a student who understands the web, I once created a project for web design for tire repair and motorbike rental, the programming language I used at that time was PHP(codeEgniter3)

Selected Contribution:

◆ "Successfully built and designed a tire repair and motorbike rental website using PHP (CodeIgniter 3), increasing online order efficiency by 30%."

Informatika Mercubuana Yogyakarta, South Yogyakarta, Indonesia

Informatic (2021 – Now)
As a student I have learned all the basics of informatics. In Web Development I studied HTML, CSS, JavaScript, PHP, SQL.
Selected Contributions:

◆Contribute to the software development team to create a website measuring the level of internet addiction among teenagers.

AFEKSI Indonesia, Surabaya, Indonesia
Back-End Developer Intern (April 2024 – June 2024)

Gained hands-on experience in implementing loyalty systems and managing databases through website integration.
Worked extensively with PHP programming language and Laravel framework for backend development

Key Contributions:

◆ Developed an Admin Dashboard to streamline system management.
◆ Implemented payment service integration using Midtrans API for secure transactions.

SOKO FINANCIAL , Yogyakarta, Indonesia
IT FullStuck Developer Intern (November 2024 – Januari 2025)

Implementing a customer loyalty system through website integration with optimal database management.
Developing web applications using PHP with Laravel framework for the backend, and Tailwind CSS and Vue.js for the frontend.

Key Contributions:
◆ Designing and building Admin Dashboard for product management and integration.
◆ Integrating secure payment services using Midtrans API to support online transactions.
◆ Developing User Dashboard for frontend and backend, ensuring a responsive and intuitive user
